WORK EXPERIENCE

Trainee Network Engineer, NEC Australia - 2018 ~ 2019

Member of team responsible for maintaining and expanding the network infrastructure for the Northern Territory government and its agencies.

- Managed problem ticket creation and distribution for incidents within the environment.
- Designed and implemented changes within the network in response to client requests.
- Troubleshooted and resolved networking incidents within SLA.
- Obtained Police Fire and Emergency Services clearance to work in highly senstive IT environments.

Highlight Project: Created a script to automate the configuration of 2500+ WAPs across the network thus avoiding the need for an outage to client services (Reducing change duration from 9 days to 3 hours).

Various Customer Service/Technition Roles - 2014 ~ 2018

UNIVERSITY EXPERIENCE

Operations Manager, RMIT CSIT Society - 2020 ~ Present

Executive member of the largest technology club at RMIT University.

- Responsible for taking meeting minutes, sponsorship procurement and process documentation.
- Actively involved in the organisation and management of multiple weekly social and academic events.

Events Officer, The Programming Club RMIT - 2020 ~ Present

- Organised, documented and carried out academic events for club members.
- Suggested and implemented improvements to club to increase member engagement.

Student Ambassador, RMIT - 2020 ~ Present

- Presented and discussed with prospective students their opportunities at RMIT Uiversity.

Academic Mentor, RMIT - 2020

- Provided mentorship to students taking Programming Techniques in both Python and Java.

PERSONAL PROJECTS
